

What is eValue8?

A national, standardized health plan evaluation used to:

- Articulate Purchaser expectations
- Facilitate value-based purchasing by supplying the Quality factor in the value equation
- Provide benchmarks for local and national comparisons - between plans, and over time
- Promote continuous quality improvement
- Drive collaboration between Plans and Purchasers
- Educate employees on plan quality

eValue8 Modules

- Business Profile
- Provider Measurement and Management
- Helping Members Stay/Get Healthy
- Helping Members become Good Consumers
- Helping Members Helping Members Manage Acute/ Episodic Conditions and Advanced Care
- Helping Members Manage Chronic Conditions (CAD, Diabetes, and Behavioral Health)
- Pharmaceutical Management
- Client Support, Data Analyses and Reporting
